

Air Rifles

Risk Level: High

Minimum Adults Needed: 1 competent adult for every 2 guns

Location: Air Rifle Range

Supervisors: Competent supervisor (18+)

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - .. Ensure adequate clothing and footwear are worn especially if outdoors.
 - .. Maintain group control at all times.
 - .. Be aware of emergency procedures.
 - .. Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.
- Risks associated with normal daily life have not been included (such as bee stings, sunburn, etc.) as it is expected that all groups will apply normal precautions to avoid these and to address them if need be.

EMERGENCY PROCEDURES

- Stop the activity
- Assess the situation and the group safety as well as your own
- Call 111 and give clear details or instruct another adult to do this step
- Administer first aid and seek further treatment if necessary
- Fill in Accident Report Sheet with your First Aid Officer (See Staff)

Equipment		
Risk	Causing Factors	Normal Operations
Injury or Death	Hit by pellet	No one is allowed in the target area while shooting is in progress. No one is allowed to touch the air rifles whilst targets are being placed/retrieved. Always point the air rifles away from people including when being loaded. Safety goggles are to be worn whilst shooting. Only competent adults are to load air rifles, and no one is to shoot from outside the safety tunnels.
	Hit by ricocheting pellet	Participants that are operating the air rifles are to be wearing safety goggles to protect their eyes. Participants are instructed to only shoot within the designated firing zone.
	Equipment faults	Equipment and target area regularly undergo maintenance by OBA staff. Participants instructed on proper handling of the air rifles.
People		
Risk	Causing Factors	Normal Operations
Injury	Loss of group control, misbehavior, or interaction between groups	Competent supervisors to be supplied by client group.
	Failure to follow instructions of use	Ensuring correct training is provided for use of equipment by OBA staff member who is deemed competent by Activities Manager. Ensuring before allowing the client group to use the equipment that they are confident and competent after the initial training.
	Other people wandering into the target area	Ensure 'WAIT' signs are clearly visible around entrance to target area. No participant is to go past the shooting tunnels, instruct waiting participants to be seated on the bench.
	Equipment left un-supervised	Explained to adults during training and on Instruction Sheet to bring gear back to the activities office between sessions.
Environment		
Risk	Causing Factors	Normal Operations
Injury or Death	Trees falling	OBA staff regularly check trees in the vicinity to ensure no rotting or deadwood.
	Natural stream flooding	Activity called off in extreme weather or flooding. This activity moves to an indoor activity.

Archery

Risk Level: Moderate

Minimum Adults Needed: 1

Location: Archery Range

Supervisors: Competent supervisors that are 16+

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - Ensure adequate clothing and footwear are worn especially if outdoors.
 - Maintain group control at all times.
 - Be aware of emergency procedures.
 - Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.
- Risks associated with normal daily life have not been included (such as bee stings, sunburn, etc.) as it is expected that all groups will apply normal precautions to avoid these and to address them if need be.

EMERGENCY PROCEDURES

1. Stop the activity
2. Assess the situation and the group safety as well as your own
3. Call 111 and give clear details or instruct another adult to do this step
4. Administer first aid and seek further treatment if necessary
5. Fill in Accident Report Sheet with your First Aid Officer (See Staff)

Equipment		
Risk	Causing Factors	Normal Operations
Injury or death	Hit by arrow	Supervisors are trained on the correct loading process to avoid a miss fire. Supervisor are to clearly explain to participants that no one is allowed in the target area while archery shooting is in progress. Always point the arrows downrange and never towards people/animals. Ensure no arrows are available at shooting platform before supervisor retrieves them from downrange.
	Arm grazed by misuse of bow	Supervisor clearly explains proper use of bow as trained by OBA Instructor.
	Equipment breaking or faulty	Equipment regularly undergoes inspections and maintenance.
People		
Risk	Causing Factors	Normal Operations
Injury or death	Loss of group control/misbehavior	Competent adult supervision and group management.
	Other people wandering into target area.	Ensure 'WAIT' signs are clearly visible, and participants to be seated behind yellow line.
	Failure to follow instructions	Ensure supervisors are trained by staff for proper use of equipment.
	Gear left unsupervised	Explained to adults during training and on Instruction Sheet to bring gear back to the activities office between sessions.
Environment		
Risk	Causing Factors	Normal Operations
Injury or death	Trees falling	OBA staff regularly checks trees in the vicinity to ensure no rotting or deadwood.
	Natural stream flooding	Activity called off in extreme weather or flooding. This activity moves to an indoor activity.

Blast From The Past

Risk Level: Low

Minimum Adults Needed: 1 Competent adult

Location: Dining Room, Gymnasium or outside

Supervisors: Competent supervisor

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - .. Ensure adequate clothing and footwear are worn especially if outdoors.
 - .. Maintain group control at all times.
 - .. Be aware of emergency procedures.
 - .. Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.
- Risks associated with normal daily life have not been included (such as bee stings, sunburn, etc.) as it is expected that all groups will apply normal precautions to avoid these and to address them if need be.

EMERGENCY PROCEDURES

1. Stop the activity
2. Assess the situation and the group safety as well as your own
3. Call 111 and give clear details or instruct another adult to do this step
4. Administer first aid and seek further treatment if necessary
5. Fill in Accident Report Sheet with your First Aid Officer (See Staff)

Equipment		
Risk	Causing Factors	Normal Operations
Injury	Equipment breaking or unsafe for use	Equipment regularly undergoes maintenance checks and repairs by OBA staff.
People		
Risk	Causing Factors	Normal Operations
Injury	Equipment being misused by participants	Supervisors to instruct on proper use of equipment as advised by OBA staff.
	Participants colliding with one another	Boundaries explained to participants by supervisor.
	Participants sustaining carpet burn	Participants made aware of the flooring and the injuries that are possible.
	Loss of group control or misbehavior	Competent supervision to be provided by client group.

Burma Trail

Risk Level: Low

Minimum Adults Needed: 2 competent adults

Location: Bush near the confidence course & campfire

Supervisors: Competent supervisors

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).

EMERGENCY PROCEDURES

1. Stop the activity
2. Assess the situation and the group safety as well as your own
3. Call 111 and give clear details or instruct another adult to do this step
4. Administer first aid and seek further treatment if necessary
5. Fill in Accident Report Sheet with your First Aid Officer (See Staff)

People		
Risk	Causing Factors	Normal Operations
Injury or Death	Los of group control and misbehavior	Competent adult supervision. Group sizes are to be manageable.
	Wandering off or getting lost in the dark	Participants advised that no-one is to leave their group or go to the trail area without permission. Headcount to be done before and after the activity.
Environment		
Risk	Causing Factors	Normal Operations
Injury or Death	Trees and braches falling on participants	The trail undergoes regular maintenance checks and is cleared of rotten wood by OBA staff.
	Participants tripping over or walking into trees, branches and roots. Participants getting lost and falling into the stream.	Participants instructed to participate carefully and warned of the risks of this happening prior to undertaking the activity.

Bush Survival Skills

Risk Level: Low - Moderate

Minimum Adults Needed: 1 competent adult (someone with bush knowledge is helpful)

Location: Yellow room & Bush skills location

Supervisors: At least 1 competent supervisor

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - .. Ensure adequate clothing and footwear are worn especially if outdoors.
 - .. Maintain group control at all times.
 - .. Be aware of emergency procedures.
 - .. Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.

Environment		
Risk	Causing Factors	Normal Operations
Death or Injury	Slipping and tripping on stairs in wet weather	Participants to move carefully and must wear appropriate shoes.
	Falling pinecones, branches, or trees	Boundaries explained to participants and they are instructed to not be under the tree unless walking up the tower with their helmet on.
	Lightning strikes the high wire	Instructor to close activity if any lightning or thunder is observed.

Gaga Ball

Risk Level: Low

Minimum Adults Needed: 1

Location: Gaga ball pit

Supervisors: Competent supervisor

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - Ensure adequate clothing and footwear are worn especially if outdoors.
 - Maintain group control at all times.
 - Be aware of emergency procedures.
 - Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.
- Risks associated with normal daily life have not been included (such as bee stings, sunburn, etc.) as it is expected that all groups will apply normal precautions to avoid these and to address them if need be.

EMERGENCY PROCEDURES

1. Stop the activity
2. Assess the situation and the group safety as well as your own
3. Call 111 and give clear details or instruct another adult to do this step
4. Administer first aid and seek further treatment if necessary
5. Fill in Accident Report Sheet with your First Aid Officer (See Staff)

People		
Risk	Causing Factors	Normal Operations
Injury	Tripping or colliding with other participants	Supervisor instructs the participants to be cautious of their surroundings.
	Loss of group control or misbehavior	Competent supervisors to be provided by the client group.
Environment		
Risk	Causing Factors	Normal Operations
Injury	Scraping body on the gravel floor base	Supervisor advises the participants of the gravel flooring and to be careful.

 - Be aware of emergency procedures.
 - Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.
- Risks associated with normal daily life have not been included (such as bee stings, sunburn, etc.) as it is expected that all groups will apply normal precautions to avoid these and to address them if need be.

EMERGENCY PROCEDURES

1. Stop the activity
2. Assess the situation and the group safety as well as your own
3. Call 111 and give clear details or instruct another adult to do this step
4. Administer first aid and seek further treatment if necessary
5. Fill in Accident Report Sheet with your First Aid Officer (See Staff)

Equipment		
Risk	Causing Factors	Normal Operations
Drowning or Injury	Raft fails	Adult supervisor(s) ready to assist with building and testing raft if needed.
	Life Jacket not fitted correctly or not fit for use	Ensure lifejackets are properly fitted. Life jackets regularly undergo maintenance checks by staff.
	Rope entanglement	Adult supervisor(s) constantly keeping observations of participants whilst in the water. If a child falls off into the water, making sure they return to the surface and are not caught or entangled in any equipment. Provide appropriate response if necessary.
People		
Risk	Causing Factors	Normal Operations
Drowning or Injury	Loss of group control	Competent adult supervision and group control.
	Child panics or cannot swim	All children are warned of the dangers and are told to not enter the water if they struggle with swimming.
	Participants not wearing life jacket	Participants are given full safety instructions and always told to wear a life jacket when on the raft or in the water.
	Participant caught underneath raft or tangled in rope	Adult supervisor(s) constantly keeping observations of participants whilst in the water. If a child falls off into the water, making sure they return to the surface and are not caught or entangled in any equipment. Provide appropriate response if necessary.
	Inadequate supervision	It is recommended that a suitably qualified person supervises the use of the waterhole.
Environment		
Risk	Causing Factors	Normal Operations
Drowning or Injury	Excessive rain or flooding	Activity halted or cancelled if rain is excessive.
	Branches falling into the stream	Staff to keep banks and stream clear of branches and dying trees.
	Dam breaks or participants fall over the edge	Dam undergoes regular maintenance by staff. Instruct participants to stay clear of the edge.
	Falling while dismounting the raft	All participants warned of concrete edging and to be cautious as they dismount the raft.

Rainbow Tag

Risk Level: Low

Minimum Adults Needed: 1 OBA Instructor & 12 Competent adults

Location: Camp wide

Supervisors: Competent adults

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - Ensure adequate clothing and footwear are worn especially if outdoors.
 - Maintain group control at all times.
 - Be aware of emergency procedures.
 - Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.
- Risks associated with normal daily life have not been included (such as bee stings, sunburn, etc.) as it is expected that all groups will apply normal precautions to avoid these and to address them if need be.

EMERGENCY PROCEDURES

1. Stop the activity
2. Assess the situation and the group safety as well as your own
3. Call 111 and give clear details or instruct another adult to do this step
4. Administer first aid and seek further treatment if necessary
5. Fill in Accident Report Sheet with your First Aid Officer (See Staff)

People		
Risk	Causing Factors	Normal Operations
Injury	Participants falling, tripping or colliding with each other	Advise all participants (Including adults) to be cautious of their surroundings.
	Participants not adhering to boundaries	Boundaries are clearly set by OBA staff.
	Loss of group control or misbehavior	OBA staff to run activity with support from competent adults supplied by client group.
Environment		
Risk	Causing Factors	Normal Operations
Injury or Drowning	Natural stream	Boundaries are clearly set and explained to participants by OBA staff.
	Falling branches, trees or other.	Advise all participants (Including adults) to be cautious of their surroundings.

Playground

Risk Level: Low

Minimum Adults Needed: 1

Location: Grass Bank to the left of the waterhole boardwalk

Supervisors: Competent adult supervisor

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - Ensure adequate clothing and footwear are worn especially if outdoors.
 - Maintain group control at all times.
 - Be aware of emergency procedures.
 - Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.

- Encourage full group participation and have fun together!

- The **RAMS** outlined below are for hazards that could result in serious illness, injury and/or death. These hazards are specifically related to use of One Big Adventure equipment during activities.
- Risks associated with normal daily life have not been included (such as bee stings, sunburn, etc.) as it is expected that all groups will apply normal precautions to avoid these and to address them if need be.

EMERGENCY PROCEDURES

1. Stop the activity
2. Assess the situation and the group safety as well as your own
3. Call 111 and give clear details or instruct another adult to do this step
4. Administer first aid and seek further treatment if necessary
5. Fill in Accident Report Sheet with your First Aid Officer (See Staff)

Equipment		
Risk	Causing Factors	Normal Operations
Injury	Broken or damaged equipment	Ensure equipment is set up correctly. Equipment undergoes regular maintenance checks by staff.
People		
Risk	Causing Factors	Normal Operations
Injury	Participant hit by someone or something whilst completing a station	Competent adult supervision and instruction at each station.
	Loss of group control or misbehavior	Competent adult supervision and group management.
Environment		
Risk	Causing Factors	Normal Operations
Injury	Slipping or tripping	Instruct participants to be careful when moving between stations. Appropriate footwear to be worn.

Risk Level: Low

Minimum Adults Needed: 3 competent adults

Location: Dining Hall

Supervisors: Competent supervisor

Important Information for Supervisors of Activity Groups:

- The participants and their safety is **your** responsibility for the entire duration of the session. Do not allow any participant to leave the group without your permission.
- Please ensure your cellphone is off & attention is on the participants at all times.
- Please ensure you are acquainted with the **Activity Instructions** and the **RAMS** form for your activity prior to beginning the session.
- It is expected that your organisation will have briefed supervisors as to any special needs/at risk participants (e.g. a severe bee-sting allergy, epilepsy).
- If you have any concerns about the activity, the equipment or your level of ability in regards to this activity, please speak with One Big Adventure staff immediately.
- Normal precautions for participant safety apply such as:
 - Ensure adequate clothing and footwear are worn especially if outdoors.
 - Maintain group control at all times.
 - Be aware of emergency procedures.
 - Know who your First Aid Officer for the group is and their location.
- Encourage full group participation and have fun together!
