

# Rogaining

## Instruction sheet

### Guidelines for Taking an Rogaining Session:

#### Rogaining

- You will be given maps and a question-and-answer sheet for the children. You will have an answer sheet too.
- The aim is for the participants to find the numbered location on the map and answer the relevant question when there. They should write the answers down on the sheet provided.
- It is recommended to divide your group into two. Then you will be able to have a competition between the two groups as to who can finish first.
- One adult must go with each group.
- Only give clues if absolutely necessary!
- The first group back to the base with the correct answers to each question will be the winners.
